

Public Consultation Events for Draft Flood Risk Management Plans

Draft Flood Risk Management Plans are now being published for consultation on a rolling basis and we would encourage you to view them and to make a submission, setting out your views on the Draft Plans and on the questions being asked as part of the consultation. The Draft FRMPs are/will be available in the principal offices of each Local Authority and also on-line to view and/or download. As each Draft Flood Risk Management Plan is published for consultation, OPW is holding a series of public consultation events, where members of the public can ask questions in relation to the Draft Flood Risk Management Plans that are specific to their particular area.
